> Miss Bessie Cline, a member of the senior class of the West Rutland high school, was working at the town hall Saturday, putting up decorations when she fell from a stepladder, and struck on a chair, which tipped over, throwing her to the floor. She has been unable to stand or take a step since and it is supposed she is injured internally.

The body of Arthur Baird, the 19-year-old son of Lorenzo Baird of Highgate, who was drowned in the Missis quoi river May 22, was found in the tay at Jameson's point in Canada, Sunday, fully 25 or 30 miles from where the accident took place. Young Baird is the one who tried to see how near the dam he could go and went over. .

It became necessary for the Troy sur geons to remove the eye of Andrew Hummer, the son of George Hummer of Bennington, who was recently injured by the explosion of a bottle of lime and water. During the first few days following the injury, there were hopes that the eye might be saved, but the burning was too severe.

These results show an increase of 30 polls for the year.

The Rutland Railway, Light & Power o, will begin at once the construction of the dam at East Clarendon on Mill river, for which some preparatory work was done last year and which when com pleted, will be 80 feet high and will ocrease its storage capacity at least 1,000 horsepower. It will be the first work of I. M. Frost, who has gone to Rutland from Montpelier to succeed General Manager George S. Haley.

A large oil painting in the public reading room in the Akeley Memorial building at Stowe is a gift to the building from Miss Ellen E. Leonard, legates of the Stowe property of the late Miss Anna C. Brackett of New York. The painting is a graphic delineation of the three saddle horses ridden by Miss Brackett and her groom during many of the earlier years of her residence in Stowe, and were as well known to the residents as Miss Brackett herself.

A valuable cow belonging to R. D Batchelder of Winooski was discovered recently in a crevice between two ledges on his farm at Malletts bay. The cow had been missing four days. The ledge is about 100 yards from the barn and as it snowed that morning, the cow prob ably slipped into the crevice, which is about 12 feet deep and became fastened, with no chance of getting out. The cow was raised with the aid of a tackle and it is thought she will live. Mr. Batch elder valued the animal at \$500.
